2009 School Board Elections – *Make the difference. You can.*

The Newfoundland and Labrador School Boards Association (NLSBA) is encouraging people to become involved in the 2009 School Board Elections which will be held November 3.

School board trustees are the voice of the community in making decisions that directly affect students and schools. Trustees are a very important part of our school communities and the overall education system in our district. While you do not have to have children in school to run as a trustee, parents of school-aged children have a vested interest in the quality of education that their children receive. The nomination period is October 2-8 and between now and then parents are encouraged to give some serious thought to running in the upcoming elections.

Further information about the school board elections can be found on the elections website, [www.schoolboardselections.com](http://www.schoolboardselections.com), or by contacting your local district. Let's all do our part to ensure that our children benefit from a quality education system. If you do not run in the election, be sure to cast your ballot on November 3. Education is everyone's issue.
