

### **In the Case of a Power Outage**

1. Once children are en route to school, school will be open to receive students.
2. Upon arrival at school, students will proceed to their homeroom.
3. Students will remain in their homeroom with their teachers until it is determined when the power will return.
4. If it is found the power will be off for an extended period of time, students will be dismissed from school during a natural break in the school day.
5. During the power outage, staff will be assigned to circulate through the school to help ensure the safety of all the school's occupants.
